

THE NEW SC50

Robotic cleaning
just got easier

NILFISK

Every minute counts. Get the most out of it

With the Nilfisk SC50, we've made autonomous cleaning even easier. Our aim is simple: to help you clean consistently and get the most out of your time and resources with an easy-to-use, ultra-efficient, long-running autonomous scrubber-dryer.

Extremely easy to use

Get started quickly, minimize training time, and experience seamless operation.

Maximize efficiency and productivity

Optimize your workforce, elevate performance, and get the most out of resources.

Consistent and reliable cleaning

Achieve the highest standard of clean, each and every time.

No off days, the SC50 simply goes on and on

Optimize your workforce—sounds alluring, right? Well, how about leaving the labor-intensive tasks for this dream machine and letting your team spend time on more pressing tasks? With 10+ Hours of runtime, the SC50 optimizes efficiency and productivity. You don't even have to worry about long training sessions, it integrates

seamlessly into existing workflows and facilities. The SC50 really doesn't have any off days but always leaves you with the highest standard of cleaning by eliminating variability and reducing the risk of human error.

Experience a fast start and seamless operation with an intuitive interface. The large 15-inch touchscreen, with easy-to-understand controls and step-by-step guidance, minimizes training time.

Meet pressing staffing challenges with an autonomous cleaning machine that manages repetitive, time- and labor-demanding jobs. And let your team focus on the tasks that need a human touch.

Achieve consistent and reliable cleaning always. The UI guides operators through the cleaning process, and the fill-in mode ensures 99% coverage. Simply trust it's clean (simply because it is!).

Control machines anywhere, anytime

Manage your equipment on-the-go with our app. Whether you are running operations, supervising performance or adjusting targets – you can do it all from your smartphone, maximizing your time and efficiency on site.

See, robotic cleaning just got easier!

Unlock the full potential of your cleaning equipment

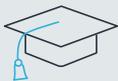

- Effortlessly manage your fleet with our connectivity portal
- Online platform for viewing and managing connected cleaning machines
- Set productivity targets and receive deviation alerts
- Downloadable productivity reports and insights
- Seamless access via mobile app and web platform

Let your people focus on what matters

Retail

A busy environment requires a machine that can clean quickly within a specific timeframe. The SC50 cleans consistently, efficiently, and productively without operational shutdown.

Education

Let SC50 tackle labor-intensive tasks while you spend time on more pressing jobs. Its Fill-In mode is ideal for high-volume cleaning in large areas allowing up to 2.5 hours of cleaning in a single water tank.

Healthcare

Clean and germ-free environments are crucial in institutions and hospitals. With UI guiding the operators, the SC50 reduces the risk of human error and provides an excellent hygienic standard.
